# REGIONAL. NATURAL. YUMMY.

Honey is extremely delicious and a valuable foodstuff, but it gets even better: when you purchase a honey bee product, you are supporting a nearBees bee protection project. As pollinators, the proverbial hard-working producers of the golden-coloured delicacy

ensure flourishing landscapes and high-yielding harvests, as well as the future preservation of the plant and animal world. This appeals to honey fans and the many people who appreciate these small insects with yellow stripes.
